Performance Verified by IAPMO R&T Labs.

IAPMO R&T LAB		TEST REPORT
Report Number:	2536-18001-002	Project No.: 29225
Report Issued:	February 26, 2018.	
Client:	Aqua-Rex 3301 Spring Mountain Road Ste 18 Las Vegas, NV 89102	Contact: Jonny Seccombe
Source of Samples:	The samples were shipped to IAPMO R&T Lab from Aqua-Rex, and received in good condition on October 11, 2017.	
Date of Testing:	October 25, 2017 through December 15, 2017.	
Sample Description:	Scale Prevention Device; model: Aqua-Rex WK1-E.	
Scope of Testing:	The purpose of the testing is to determine the efficacy of the Scale Prevention Device per section 5 of IAPMO IGC 335-2018, entitled "Rapid Scaling Test for Scale Prevention Devices".	
CONCLUSION:	When tested per Section 5 of IAPMO IGC 335-2018, Aqua-Rex WK1-E reduced scaling by 83% when applied to Las Vegas water heated to 180°F.

Protect Your Home

- Stop scale from killing your water heater & appliances.
- Remove existing scale build up *without harsh chemicals*.
- Stop unsightly hard water stains on your faucets, showers, windows, & more.

Love Your Water

- Enjoy softer water without the slick feeling.
- Keep the *healthy* minerals nature added.
- *More lather* for hair, skin & *laundry*.

Conserve Their Future

- Zero wasted water compared to traditional water softener.
- Save Money: No salt, no maintenance & no servicing.
- Save energy with a scale free heater.
- No adverse effect on *septic tanks or community water systems*.

The Water Softener Alternative

"No Salt Softener"

Where do I install it?

Aqua-Rex is simple to install. Just wrap the wires around the inlet to the water heater or on the softener loop and plug the transformer into an outlet. You don't need to cut any pipes or do any other kind of plumbing. Just check that the light is flashing and you can leave it to work all year long for about \$20 in electricity. Just Fit it and Forget it! **If you are a RENTER remember to take it with you when you move.**

Does it treat all the water in the home?

Aqua-Rex sends a signal into the water heater even when no water is flowing and it also sends a signal back into the cold supply in the rest of the home so mixing valves, showerheads and kitchen faucets won't get scaled up either.

How does it differ from a water softener?

Aqua-Rex doesn't use any salt or chemicals and it doesn't produce any environmentally unfriendly discharges. It needs no maintenance or servicing and it costs hardly anything to run. Most importantly there is no slippery, slimy feel to the water and it's perfectly healthy to drink.

Is it as good as a water softener?

Aqua-Rex reduces scaling and also gets rid of old scale in the home. It makes water softer so you use less soap and detergents and it means washing your hair is so much better. It can deliver the same benefits of a conventional water softener, and there's no salt to haul!

Will it work on any pipe material?

You can wrap the Aqua-Rex wires on any type of pipe: plastic or metal, even the copper flexible inlet pipe to the water heater.

Which unit do I need?

If you have a gas water heater supplied by city water you need the WK1. If you have an electric heater or if you are on a well water supply with a gas heater, you need the WK1-E. Both fit any line size up to 1¼" and it makes no difference how large the home is or how much water is used.

Will it do what I want?

Only you can decide that. Try it and see! We give you a no condition money back guarantee so you have nothing to lose except your limescale!

What else can Aqua-Rex do?

Swimming Pools. Aqua-Rex is great for clearing the calcium scale from tiles and water features. It stops scaling in the salt water chlorine generator and makes the biocide work more efficiently. It reduces phosphates thus making the pool clearer. The WK1P is fully waterproof and should be installed on the circulating line after the pump.

Does Aqua-Rex work on the Dishwasher?

The answer is no! The pump in the dishwasher reduces the effectiveness of Aqua-Rex so you need to use a good hard water detergent and **most importantly a hard water rinse aid, such as Lemishine** which is available from most stores. If you follow these instructions you should be happy with the results from the dishwasher. Laundry washing machines work better with Aqua-Rex.

Can Aqua-Rex treat anything bigger than a home?

Aqua-Rex units are available for all pipe sizes and are installed on hotels, condos, industrial plants and cooling towers. They are used in schools, colleges, correctional centers and military bases, everywhere that hard water is a problem.

You can find out more about Aqua-Rex from the Specifiers Guide available on our website www.aqua-rex.com.

The website also gives you access to many published articles on physical water conditioning and references scientific research on the subject. To learn more about Aqua-Rex, or Water-King as it is known outside of the USA, and Physical Water Conditioners generally, go to:- www.lifescience.co.uk, the parent company of Aqua-Rex, and learn about Water-King from the Lifescience Academy.
